

Stainless Steel Shelf for 15/50 ml Tubes Horizontal with Drawer

Description

Horizontal stainless steel shelving with fully extendable drawers. Saves time as the tubes do not have to be moved in and out of storage boxes.

Suitable for 15 ml and 50 ml tubes (not included).
All tubes are stored upright.
The drawer can be pulled out completely for easy access to the rearmost samples.

All tubes are organized in a grid system that promotes even circulation.

Stainless Steel shelf ER 78
