

Pen-Ray Field-Pack

Description

Field-Pack combines a Pen-Ray® UV light source and a power supply unit (9V battery) in a compact, portable housing.

The small Pen-Ray® lamps are very lightweight and are perfect for taking with you on field studies.

Applications

- Field use inspections
- Spectroscopy
- Fluorometry
- Wavelength calibration

Specifications

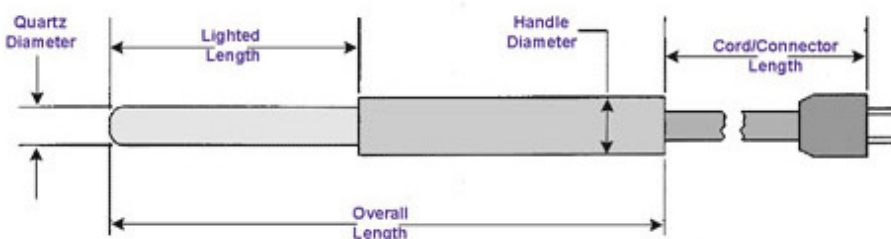

- Field Packs weigh only about 140 and fit in a pocket or can be worn on a belt with the clip attached to the case.
- Field Packs are available with a choice of customisation options or in three standard configurations.
- Model 95-0256-03 contains two interchangeable light sources (365 nm and 254 nm). The lamp connector is located on the outside of the power supply (this configuration only).
- Other lamp configurations are equipped with one light source and permanently connected to the power supply unit.
